# About **BEP - 20**

BEP-20 is a token standard on Binance Smart Chain (BSC) that extends ERC-20, the most common Ethereum token standard. Designed for compatibility with the Ethereum ecosystem, BEP-20 enables token creation, transfer, and management with minimal fees and rapid transactions. This standard empowers developers to create a wide range of digital assets, from stablecoins to utility tokens, within the Binance ecosystem.

## Key Features of BEP-20

# About **KRYP R GOLD**

KRYP R GOLD is an exclusive, high-valued digital currency backed by 99.99% pure gold, designed to provide unmatched security and value within the ATG World ecosystem. As a premium currency, it offers both stability and a tangible asset foundation, setting a new standard for value retention in digital assets.

# Exchange Rate

KRYP R GOLD is positioned as an exclusive, high-value currency within the ATG ecosystem, with a **fixed exchange rate of 1 KRYP R GOLD to 1,000 ATGW Tokens**. This valuation reflects the premium status of KRYP R GOLD as a gold-backed asset, making it significantly more valuable than ATGW Token. This dual-currency relationship allows users to seamlessly elevate their holdings from ATGW Token to the premium, gold-backed KRYP R GOLD, which can serve as a secure store of wealth within the ATG ecosystem.
